We currently offer hybrid attorney contracts which operate in a few different ways. First off, and most exciting, is that we offer you more clients as we continue to procure them. Secondly, for any clients that you have, or obtain, you have the choice of utilizing us by removing yourself from the background work, and having to manage staff, so that you may take on more clients and have no interference with your revenue stream.

Through this partnership, if you bring the clients to us, you choose what to bill our services for, because that remains between you and your client. And, if we bring the client, we charge the best rate for our excellent services.

What we do is accurate in detail, and handled to the highest standard of professionalism.

Our paralegals have access to industry leading programs and resources to accomplish their work more effectively and efficiently. This means that you are not burdened by those expenses or hindered by not having the proper readily accessible resources to get the job done more efficiently and effectively.

With IPS, you will achieve greater profitability.

We are not just a single paralegal, or even a few, we are an entire team of passionate and competent paralegals and attorneys, that are highly skilled in what we do.

No case load is too large, and no deadline is too challenging because we work as a team of many.
